INDEX

[R] indicates Review article

AMMONITES in Thin, Median, Sections, L. F. Spath, 77.
—— Jurassic, W. J. Arkell, 265.
Amsden, T. W., Stratigraphy and Paleontology of Brownsport Formation, [R] 303.
Arkell, W. J., Synonymous Homonymy at Generic Level, 303.
—— Two English Upper Jurassic Ammonites, 265.
Asterozoa and the Study of Palaeozoic Faunas, W. K. Spencer, 393.

BAIRSTOW, L., *Coeloteuthis* and Synonymous Homonymy, 226.
Baringo Basin, Pleistocene Events in the, V. E. Fuchs, 149.
Bartenstein, H. Upper Carboniferous Microfossils, 253.
Bathonian Gastropods, Note on, H. Watson, 17.
—— *Viviparus*-like Gastropods, L. R. Cox, 228; Teng-Chien Yen, 230.
Begg, J. L., New Trilobites from Girvan, 285.
Black, W. W., Carboniferous Reef Limestones, 438.
Bond, G., Lower Carboniferous "Reef" Limestones, 267.
Brown, J. S., Ore Genesis, [R] 147.
Brownsport Formation, Stratigraphy and Paleontology of, T. W. Amsden, [R] 303.
Bugti Bone Beds, Age of, F. E. Eames, 53.
Bulman, O. M. B., Rejuvenation in a Rhabdosome of *Dictyonema flabelliforme*, 351.

CARBONIFEROUS in U. Teesdale, W. T. Harry, 297.
—— Microfossils, H. Bartenstein, 253.
—— Reef Limestones, G. Bond, 267; D. Parkinson, 337; W. W. Black, 438.
Cephalic Segmentation and Sutures in Trilobites, A Lamont, 300.
Ceylon, Upper Tertiary of India and, F. E. Eames, 233.
Chalk Rock at Winterborne Abbas, Dorset, J. A. Robbie, 209.
—— of Dorset, N. L. Falcon and P. E. Kent, 302.
Chapman, R. W., Contact Metamorphism at Maddocks Hill, 85.
Charnian, Supposed Fossil from the, G. M. Friedman, 441.
Coals, depth of burial, H. Wellman, 305.
Coeloteuthis and Synonymous Homonymy, L. Bairstow, 226.
College Geology, Introduction to, C. D. Holmes, [R] 146.
Compaction of Sediments, Influence of Water Films on, W. Sugden, 26.
Conocoryphe viola Beds, The, B. F. Howell and C. J. Stubblefield, 1.
Cotton, C. A., Axes of Active Warping in the New Zealand Seismic Region, 360.
Cox, L. R., Bathonian *Viviparus*-like Gastropods, 228.
Cyphoproetus newlandensis sp. nov., 287.

DARWIN and the forgotten Mr. Lonsdale, 292.
Davies, G. M., Student's Introduction to Geology, [R] 71.
Deer, W. A., Diorites of the Glen Tilt Complex, Perthshire, 181.
Devolatilization Equation for S. Wales Coals, F. M. Trotter, 196.
Dictyonema flabelliforme, Rejuvenation in, O.M.B. Bulman, 351.
Diorites and Appinites, R. Tyndale-Biscoe, 384.
—— of the Glen Tilt Complex, Perthshire, W. A. Deer, 181.
Dunbar, C. O., Historical Geology, [R] 146.
Dydacki, Z., *see* Kolbuszewski, J.

EAMES, F. E., Age of Bugti Bone Beds, 53.
—— Laki Limestone in W. Pakistan, 214.
—— Upper Tertiary of India and Ceylon, 233.
Edwards, W., *see* Stubblefield, C. J.
Emery, K. O., Submarine Canyons, 102.
Engineers, Geology for, J. M. Trefethan, [R] 146.
English Channel, Floor of the, W. B. R. King, 383.
Eocene Outlier at Chertsey, H. G. Midgley, 279.
Erzmineralien und ihre verwachsungen, P. Ramdohr, [R] 304.

Experimental Synthesis of Quartz, Albite, and Analcite, G. Wilson, 41.
Eyles, V. A., First National Geological Survey, 373.

FAIRBRIDGE, R. W., Pre-Cambrian Algal Limestone in W. Australia, 324.
Falcon, N. L., and Kent, P. E., Chalk Rock of Dorset—More Evidence of Salt?, 302.
Falkland Islands, Stone Runs of the, J. R. F. Joyce, 105.
Felspar Augen from Nigeria, B. C. King, 369.
Fenland Meres, The Origin of, J. N. Jennings, 217.
Fermor, L. L., Pre-Cambrian Formations of India, 140.
Fissure Eruption in N.E. Ireland, E. M. Patterson, 45.
Friedman, G. M., Supposed Fossil from the Charnian, 441.
Fuchs, V. E., Pleistocene Events in the Baringo Basin, Kenya Colony, 149.

GAULT Sea, Depth and Temperature of, M. H. Khan, 175.
Gigantella, Sarycheva, J. E. Prentice, 436.
Girvan, New Trilobites from, J. L. Begg, 285.
Glen Tilt Complex, Perthshire, Diorites of the, W. A. Deer, 181.
Gondwanaland, Outline and Disruption of, L. King, 353.
Greenly, E., Tectonics of Holland Arms, 131.

HARRY, W. T., Basement Carboniferous in Upper Teesdale, 297.
Hawaii, Petrography of the Island of, G. A. Macdonald, [R] 304.
Hemingway, J. E., *see* Kennedy, W. Q.
Hemming, F., Zoological Nomenclature : Article 25, 442.
Hey, M. H., Index of Mineral Species and Varieties, [R] 304.
Hilt's Law and the Volatile Contents of Coal Seams, F. M. Trotter, 68 ; O. T. Jones, 69 ; H. Wellman, 225.
Historical Geology, C. O. Dunbar, [R] 146.
—— ——, Outline of, A. K. Wells, [R] 146.
Holland Arms, Tectonics of, E. Greenly, 131.
Holmes, A., Pre-Cambrian Formations of India, 227.
—— C. D., Introduction to College Geology, [R] 146.
Homotelus stincharensis sp. nov., 288.
Hornfelses, *see* M. S. Sadashivaiah.
Howell, B. F., and Stubblefield, C. J., Fauna of the *Conocoryphe viola* Beds, 1.

INDIA and Ceylon, Upper Tertiary of, F. E. Eames, 233.
Ingletonian Series of Yorkshire, G. P. Leedal and G. P. L. Walker, 57.
International Committee for Study of Clays, 262.
International Geological Congress Report, [R] 232.

JENNINGS, J. N., The Origin of the Fenland Meres, 217.
Johnson, M. R. W., Rhaetic Beds in S. Nottinghamshire, 116.
Jones, O. T., *see* Trotter, F. M.
Joyce, J. R. F., Stone Runs of the Falkland Islands, 105.

KARROO Dolerites of the Union of South Africa, F. Walker and Poldervaart, A., [R] 72.
Kennedy, W. Q., and Hemingway, J. E., Investigation of the Torridian, 139.
Kent, P. E., *see* Falcon, N. L.
Kent's Cavern, Torquay, E. Pyddoke, 139.
Khan, M. H., Depth and Temperature of the Gault Sea, 175.
King, B. C., Large Felspar Augen from near Ilorin Town, Nigeria, 369.
—— L., Outline and Disruption of Gondwanaland, 353.
